

**Norwegian Society
of Maintenance**

Welcome to the conference:

Strategic Inspection Management 2025

September 24th–25th

TECHNICAL ORGANIZER

nfv.no

Program

Wednesday September 24th

08.30 **Registration / Coffee**

09.00 **Opening**

09.15 **Operational Technology (OT) Cybersecurity – the importance of Maintenance**
Paul Antony Moonjelil, DNV

10.00 **The Integrity Challenge in CC5**
Christopher Scales, HSE – Health and Safety Executive

10.30 **Coffee Break**

11.00 **Havtil Report – AI and how it affects oil and gas**
Christian Markussen, DNV

Life Extension

11.30 **The Jotun Project – Inspection Management Take Aways**
Trond Morten Thomassen, Vår Energi

12.00 **Repair and Lifetime Extension**
Eirik Berntsen, Altera Infrastructure

12.30 **Lunch**

13.30 **Risk based inspection planning in a lifetime extension scenario**
Roy Andre Erland og Eirin Hatling Paulsen, AkerBP

14.00 **Inspection needs for life time extension, current challenges**
Andres Rivero Aguilar, Equinor

14.30 **Discussion**

15.00 **Coffee Break**

Surface Protection

15.30 **Management of fabric maintenance**
AkerBP – Gøran Holten
Equinor – Kristian Haraldsen
Shell – Kolbjørn Nerland

16.15 **A Surface Protection Provider's view on possible future maintenance possibilities and challenges**

- Is the industry moving in the right direction?
- New technology and robotics
- New contract regimes
- Recruitment and personnel competence
- Recommendations

Sigve Aabø, Kaefer

16.45 **End of Day 1**

19.00 **Conference Dinner**

Thursday September 25th

Surface Protection

09.00 **FROSIO certification of inspectors**

- Status and future strategy plan (short intro)
- Comparison with international certification schemes
- Quality control of fabric maintenance – are we as an industry good enough and do we hold the correct competence

Trond Soltvedt, FROSIO

09.30 **Predictive Maintenance by in-field EIS**

- How can Electrochemical Impedance Spectroscopy (EIS) be effectively applied in the field to enable predictive maintenance of coated assets
- The current challenges faced in managing coating degradation, particularly in harsh environments
- Principles and benefits of the EIS method, demonstrating how it can provide real-time insights into coating health
- Key field results that highlight the value of this approach in extending asset life, optimizing maintenance planning, and reducing operational costs

Guus Colegem, CTO, C-Cube International BV

10.00 **New products with environmental requirements – challenges**

Rolf Wingsternes, StS-ISONOR AS

10.30 **Coffee Break**

11.00 **The Surface Corrosion Threat**

Thom Fossellie, Havtil

Subsea inspection

11.30 **Ormen Lange in-line inspection confirming corrosion management strategy**

Vinicius Serta Fraga, Norske Shell and Jorunn Snøan Mæland/Øystein Sævik, Maintech

12.00 **Subsea infrastructure life extension (LE) challenges for inspection and monitoring**

Martin Wall, HOIS

12.30 **Lunch**

13.30 **Subsea Pipe Bend Inspection with ROV-Deployed Crawler and Phased Array Technology**

Michel Bezemer, TSC Subsea

14.00 **Lessons Learned after 20+ years of subsea inspection**

Espen Elvheim and Ole Nørrekær Mortensen, Force

14.30 **Coffee Break**

15.00 **Inspection of caissons in the splash zone with PEC and Phased Array**

Geir Ingar Bjørnsen, Oceantech

15.30 *Summary and closing*

**Norwegian Society
of Maintenance**

Use Min side on our website to get documentation after the conference

Everyone attending the conference has access to Min side (My page).

- 1 Go to www.qualitynorway.no – Choose "Min side"

- 2 To login, please follow the instruction given on the screen:

Remember always to add + and the countrycode before your cellphone number. If you have logged into our system on an earlier occasion you have to use the same password.

If you have forgotten or don't have a password you can ask for password «Glemt/nyttpassord» and you can write a new password for you. You will receive an SMS code to continue.

- 3 You can find the documents when choosing «Aktiviteter» from menu on the left side. Then choose «Mine aktiviteter» at the top of the page and choose/press the conference name.

You will then find the documents to download on the right side.

If the documents don't show - press this symbol:

Download

If you have any difficulties please contact us:
Tel + 47 67 52 60 10
or e-mail: kundeservice@qualitynorway.no
